Commissioner for Patents

The amendment filed 2/22/07 is considered non-responsive. Please refer to the attached comments for an explanation

Art Unit: 3611

***Response to Amendment***

1. The amendment filed 2/22/07 after a decision by the Board of Patent Appeals and Interferences is not entered because prosecution is closed and the proposed amendment was not suggested in an explicit statement by the Board under 37 CFR 41.50(c). As provided in 37 CFR 1.198, prosecution of the proceeding before the primary examiner will not be reopened or reconsidered by the primary examiner after a final decision of the Board except under the provisions of 37 CFR 1.114 (request for continued examination) or 37 CFR 41.50 without the written authority of the Director, and then only for the consideration of matters not already adjudicated, sufficient cause being shown.

**Note:** claim 51 appears to be the only outstanding issue in this case with its dependant claim 52, now allowable by the Board decision.

*Claims 37 – 41 being allowed by Board Decision  
The remainder of the claims being affirmed by the Board of Patent Appeals.*

Further the proposed amendment to the claims filed on 2/20/07 would not comply with the requirements of 37 CFR 1.121(c) because the claims do not have a status identifiers labeled at the left margin of each claim as required by 37 CFR 1,121(c)

Applicant is required to list all the claims in the case from the beginning of prosecution, i.e.; claims 1-61 and must contain a status identifier in front of the claim indicating its present status; such as: (canceled), (original), (previously amended) (amended) or (new), wherein canceled claims may be grouped, and all pending claims must contain a full version of its present text including markings showing any present changes to the claims.

It is noted that the proposed claims 63-71 would be out of sequence because the last claim was 61, therefore any new claims must start with claim 62,

It is noted that proposed claim 63 is not identical to independent claims 51 and its allowable claim matter of claim 52 as suggested by applicant and therefore would be a new issue; as well as the other proposed dependent claims to independent claim 37, Prosecution after a board decision should only be directed to issues at hand and does not entitle applicant the right to submit new claims that would reopen prosecution after a final decision of the Board of Patent Appeals.

2. Since the reply filed on 2/20/07 appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH** or **THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Yeagley whose telephone number is (571)-272-6655. The examiner can normally be reached on Mon. - Thur..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley D. Morris can be reached on (571) - 272 - 6651. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Amendments to the claims filed on or after July 30, 2003 must comply with 37 CFR 1.121(c) which states:

(c) *Claims*. Amendments to a claim must be made by rewriting the entire claim with all changes (*e.g.*, additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

(1) *Claim listing*. All of the claims presented in a claim listing shall be presented in ascending numerical order. Consecutive claims having the same status of “canceled” or “not entered” may be aggregated into one statement (*e.g.*, Claims 1–5 (canceled)). The claim listing shall commence on a separate sheet of the amendment document and the sheet(s) that contain the text of any part of the claims shall not contain any other part of the amendment.

(2) *When claim text with markings is required*. All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of “currently amended,” and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of “currently amended,” or “withdrawn” if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as “withdrawn—currently amended.”

(3) *When claim text in clean version is required*. The text of all pending claims not being currently amended shall be presented in the claim listing in clean version, *i.e.*, without any markings in the presentation of text. The presentation of a clean version of any claim having the status of “original,” “withdrawn” or “previously presented” will constitute an assertion that it has not been changed relative to the immediate prior version, except to omit markings that may have been present in the immediate prior version of the claims of the status of “withdrawn” or “previously presented.” Any claim added by amendment must be indicated with the status of “new” and presented in clean version, *i.e.*, without any underlining.

(4) *When claim text shall not be presented; canceling a claim*.

(i) No claim text shall be presented for any claim in the claim listing with the status of “canceled” or “not entered.”

(ii) Cancellation of a claim shall be effected by an instruction to cancel a particular claim number. Identifying the status of a claim in the claim listing as “canceled” will constitute an instruction to cancel the claim.

(5) *Reinstatement of previously canceled claim*. A claim which was previously canceled may be reinstated only by adding the claim as a “new” claim with a new claim number.
